

PRE-ADMISSION

Evaluation by our admissions team while you are in the hospital.

YOUR INPATIENT REHABILITATION ROAD TO RECOVERY

THE ROAD TO DISCHARGE WITH ONGOING NURSING AND THERAPY EDUCATION

ADMISSION & WELCOME

Education and discharge planning begins for your estimated two-week stay in rehab.

EVALUATION & GOAL SETTING

Meet your rehab team. Complete therapy and nursing evaluations. Establish your goals for discharge.

REHAB DOCTOR CARE

For medical management, expect frequent visits from your rehab physician throughout your stay.

STAFF MEETS WEEKLY

Your rehab physician, nurse, therapists and case manager meet to discuss your progress every week.

TRANSITION TO DISCHARGE TRAINING

Increase your ability to walk and do self-care tasks safely and as independently as possible.

RE-EVALUATION DAY

Your performance will be reevaluated by the rehab team one to two days before your discharge date.

HOME PREPARATION

You will prepare for discharge with the team members to identify equipment, supplies and education for your safety at home.

FAMILY TRAINING

Educate and coach your family and caregiver with hands-on training from staff to prepare for transition to home.

FAMILY PARTICIPATION

You, your family, your rehab physician and case manager discuss your progress, concerns, discharge plans and goals.

TRANSITION TO DISCHARGE

Increase your independence in your room and on the unit.

HOME WITH OUTPATIENT THERAPY SERVICES:
